Here's what's included with your building purchase:

- 40 yr Warranty (Rust Through Perforation Warranty)
- 60 yr Warranty (Structural Warranty)

Why steel buildings are an intelligent investment for any of your storage, living and workshop needs

Our steel garage buildings are completely customizable so that they can meet your precise garage requirements – from choosing the floor plan, color, size, and more. You have complete freedom to design your garage precisely the way you want it.

The design and build-out phase for steel garage buildings is much faster.

Steel is not subject to the deterioration that regularly constructed buildings are subject to. Thus, your resale value is extraordinary and your steel garage building has the ability to be taken apart, moved and or sold in a rapid manner.

Heavy-duty steel garage buildings are resilient require very little if any regular maintenance.
