GO FACTORY-DIRECT AND UNLOCKLIMITLESS POTENTIAL

Tired of middlemen and inflated costs? Cut out the complication. As a proud American manufacturer, we ship factory-direct to all US territories, which means you skip the middleman and save thousands of dollars.

When you choose Steel Commander Corp, the sky isn't the limit—it's just the roof. You're connecting directly with the source, giving you unrivaled freedom to design a space perfectly tailored to your needs. Whether you envision a sleek, modern farmhouse or a sprawling, custom residence, we provide the steel frame that makes your dream a reality.

STEEL COMMANDER
CORP

98% RECYCLED MATERIALS
25% INSURANCE SAVINGS
50% REDUCED LABOR COSTS
95% LESS MAINTENANCE

AMPLE STORAGE CAPACITY

There is a variety of self-storage building kits ranging from rigid frames to c-channel straight wall frames, ideal for residential and business applications. The typical construction cost is higher when compared to steel buildings and navigating the permitting process is also made much easier with our pre-approved engineering plans, approved in every state in the country. The combinations of colors that we offer for the end walls and trim will allow your building the ability to blend seamlessly into any setting.

STRONG AND SECURE

Steel Commander Corp's rigid frame agricultural steel building kits are the perfect solution for any home or business need. They are strong and protective enough to house all of your farming equipment, fertilizer, or livestock feed. This ensures peace of mind and a more productive operation overall.

- **Hurricane Rated**
- **Maintenance Free**

MORE THAN JUST A HOME: SMARTER LIVING

Our residential steel building homes are becoming increasingly popular as a low-cost solution to traditional construction. They are a fraction of the cost and offer an easy, low-maintenance lifestyle with a lifespan that is second to none.

A Foundation Built on Future-Proof Benefits:

Unbreakable Strength: Built to last a lifetime, our buildings are Hurricane Rated and engineered to handle heavy snow, wind, and seismic loads.

Sustainable Sanctuary: Live responsibly! Our steel is produced in an eco-friendly manner. Plus, our tightly fortified structures use 50% less energy to heat and cool and can save you 25% on insurance costs.

Peace of Mind: Enjoy a virtually maintenance-free lifestyle. Steel is pest resistant, won't decay, and is impervious to mold, mildew, and rot.

Seamless Assembly: Your pre-engineered kit arrives with every component—pre-welded, pre-drilled, pre-cut, and prefabricated—making assembly as easy as connecting the parts and erecting it.

YOUR PROJECT, SIMPLIFIED: THE 5-STEP JOURNEY

- 1.** **Scan & Start:** Simply scan the code, and we'll get your building plan set to go.
- 2.** **Design Template:** Choose a template, adjust the dimensions, and pick your preferred materials.
- 3.** **3D Rendering:** Visualize your home! A 3D rendering will display every detail, ensuring the finished product is exactly as expected.
- 4.** **Final Touches:** Confirm your custom trim and endwall colors, and add elements like doors and windows.
- 5.** **Let's Connect:** A Steel Commander Corp representative will reach out to you within 72 hours to get your project started

CONVENIENCE IS KEY

Every component of your steel building kit is pre-welded, pre-drilled, pre-punched, pre-cut, prefabricated, and pre-engineered according to your property's demands. Every steel building kit comes with all of the components and accessories you will need including the architectural drawings, detailing every step of the installation process. You will also receive all the bolts, screws, purlins, and frames needed.

DON'T KNOW WHERE TO START?

WE HAVE GOT YOUR COVERED EVERY STEP OF THE WAY.

1

Start by simply scanning the code and we will get your building plan set to go.

2

Choose a template for your design. Adjust the dimensions of your building and pick your preferred building materials.

3

A 3D rendering of your design will display and every detail can be manipulated, ensuring that the finished product will be exactly as expected.

4

Confirm your preferred colors for each building material and add elements such as windows and doors to complete your design. Props can also be added, such as cars or trees for ease of reference.

5

Provide your contact information and a Steel Commander Corp representative will reach out to you within 72 hours to get your project started.
